OUR PHILOSOPHY

At LEX we are aware of the demanding expectations that our exclusive clients keep toward the services that we provide. Our main goal is to, at least, reach completely our clients hopes, always trying to even surpass them whenever the circumstances bring us that opportunity.

In order to accomplish our aim, we dedicate countless resources, with the purpose of materialising our primary goal: the unbeatable satisfaction of our clients, which we believe is the only evidence of all the hard work and effort that we affectionately do throughout the whole year. Therefore, our main goal is to offer the best charter yacht in the Balearic Islands, maintaining, as a consequence, the quality demands and expectations of our clients.

“Small details make big differences.”

CAPTAIN

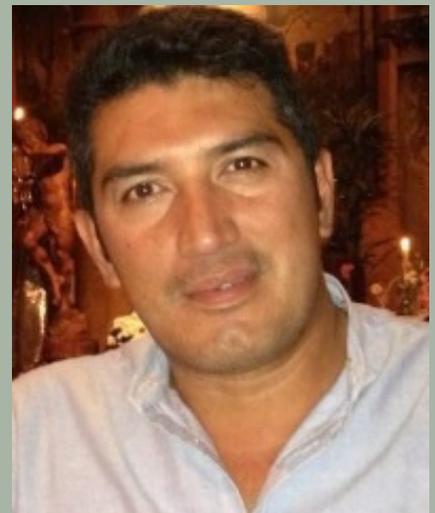

My name is JOAQUIM BATLLE, and I am a Spanish 49 year-old man. I was born in a small village located in Barcelona, referred under the name of "Vic". Since I was little, I found a great interest in the marine world and, consequently, when I turned 20, I decided to make my dream come true and started navigating the seas, activity that, since then, I have been exercising in a professional environment with enormous levels of enthusiasm and commitment. The command of several yachts, the great amount of miles that I have navigated and the many experiences that I have lived at sea, are some of the facts that reflect the immense passion that I feel for the yachting world and for those who embark, together with me, to this enthusiastic world. Additionally, I have commanded both, private and charter yachts with lengths of up to 40 metres, navigating all around the globe, although I have spent a great amount of my time navigating the waters of the Balearic Islands and, as a result of this, after more than 20 years of experience, I can say that I know many of the hidden beautiful spots that these delightful Spanish islands guard.

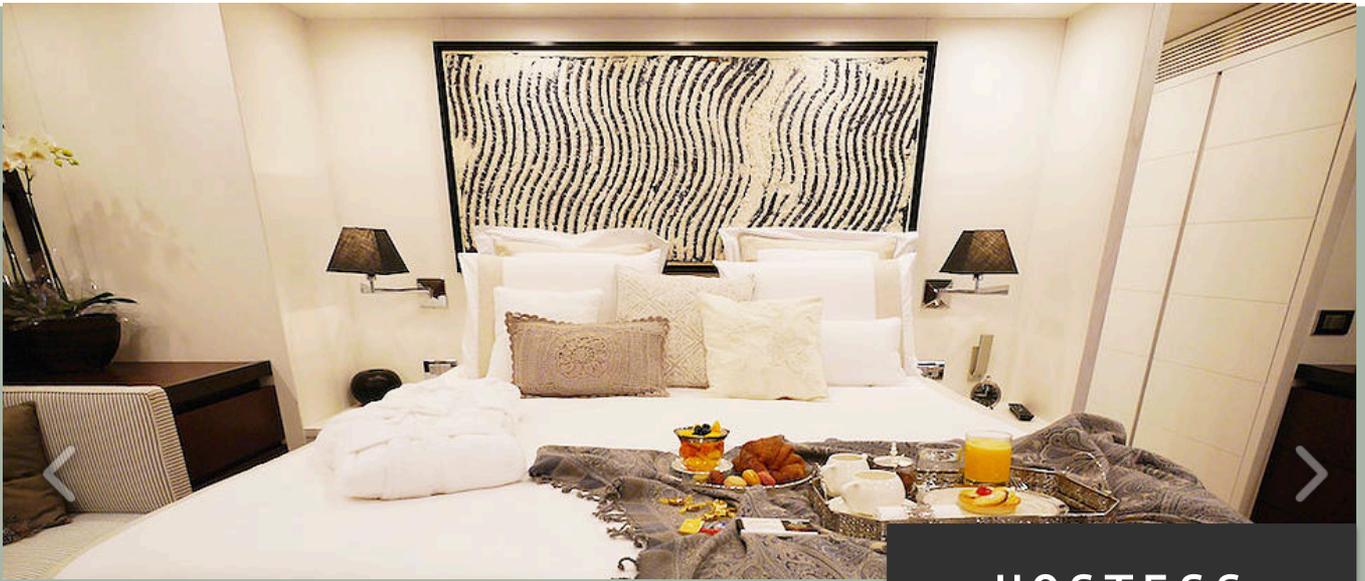

CHEF

My name is JOE MAURICIO JARA and I am 44. I was born in Ecuador but, a few years ago, I obtained my Spanish nationality. I acquired my Chef qualifications at the Superior Chef School Institute in Guayaquil (Ecuador) and, since then, I began working on charter yachts as both, Chef and Deckhand. My more than 15 years of experience as a professional cook have taught me into different and varied cooking styles, although I am specialised in the Mediterranean cuisine. However, since cooking is, apart from my job, my passion, when I am at the kitchen I am always seeking for new tastes and flavours and, throughout the years, this practice has led me to the creation of amazing and tasteful dishes, which, for sure, you will delightfully enjoy. In addition, having worked for different and varied types of guests from all over the world has brought me the opportunity to develop my cooking skills even further. I am pleased to be part of the LEX crew and, together with the rest of the team, I will always do my best to ensure that our guests feel welcome and enjoy their stay on board.

HOSTESS

My name is MARIANELA CERANTI, and I am a Uruguayan 42 year-old woman. I come from a coastal and once fishing village named *La Paloma*, located in the South East of Uruguay. In 1999, when I was 26, I decided to move to the Canary Islands, where I finished my studies in Preschool Teaching and Pedagogics. After having graduated, I spent 10 years taking care of little children at my own small school and, during that time, my friends taught me into the sailing world, for which I rapidly fell in love. Over the last 3 years, I have formalised my sailing skills and obtained the official Sailor qualifications required for working on charter yachts. Personally, I describe myself as optimistic, joyful and sociable. Helping and understanding the people that surround me makes me happy. I enjoy listening to music, reading, travelling and practising water sports such as swimming and surfing. Moreover, I try to live in constant contact with nature. If I were asked for the main reason for which I chose to work as a stewardess on charter yachts I would answer that these kind of jobs fully match my personality and, therefore, performing them makes me feel glad and personally fulfilled.

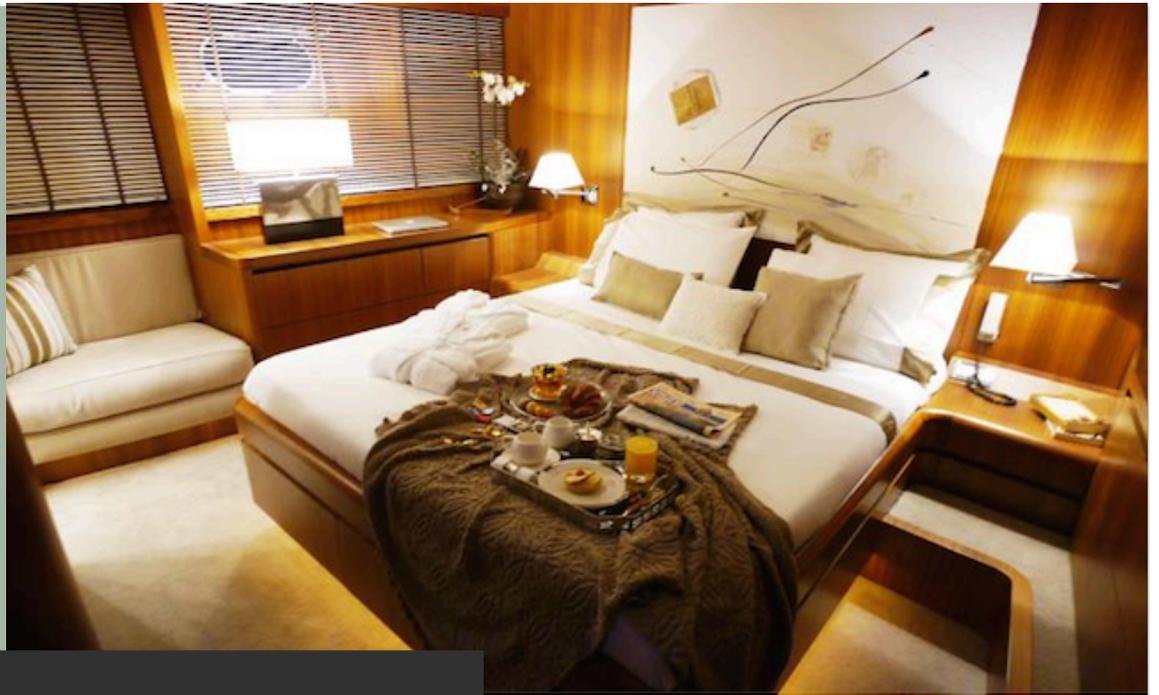

ABOUT US

LEX is a Maiora 245 Spanish-flagged luxury motor yacht. But we are something more than that. At LEX, we believe that having one of the most luxurious yachts in the Balearic Islands needs to be accompanied by additional features to ensure the maximum leisure of our customers. When our customers come to LEX, they will encounter the following:

INCREDIBLE NAVIGATION WITH 20 KNOTS CRUISE SPEED

Being a yacht built by one of the most prestigious shipyards in the world is a remarkable fact when navigation is under consideration. Additionally, having two 1500 CV engines certifies that the navigating experience will be spectacular for the whole period.

DISCRETION POLICY

At LEX, we are aware of the fact that our clients are usually renowned personalities at their respective professional occupation field. But we are also conscious of our customers' wills, which come to us seeking for rest, relax and calm. In order to ensure their desire, our crew has been specifically trained in this area and, when being with us, we guarantee that we will do our best to maintain discretion as a key objective.

“Philosophy is nothing but discretion.”

WATER SPORT ACTIVITIES

Water sport activities are a good available resource to organise our customers' leisure and ensure their pleasure. Consequently, we have a wide range of water sport utilities. Among these, we can highlight:

FULLY NEW 3 PASSENGERS JETSKI

Commanding this sporty jet ski is a fun activity that we proudly offer to our customers. It can be also used to practice other sports, such as water skiing, wakeboarding or having good laughs while trying not to fall into the water on board of our doughnut.

FULLY NEW WILLIAMS 380 TENDER

Apart from our jet ski, we have a 2015 luxurious 3.8 metres-long tender available to our customers. With it, we ensure than whenever you want to disembark and spend some time at the marvellous beaches of the Balearic Islands, you do it in the most comfortable way available. Additionally, should you desire to go for an excursion or for a diving experience, our Williams 380 will carry you in a fun and safe way. Furthermore, it's 110 CV guarantee that, for the activities in which top-speed is required, our Williams 380 will provide you with this feature.

WATER SPORT ACTIVITIES

PADDLE SURF

If you are a sporty customer or if you just want to have a marvellous time in combination with nature, we offer you the possibility of piloting our paddle surf table.

Wi-Fi CONNECTION

In a complete technological world, spending your holidays on board of a yacht should not be equivalent to not having Internet connection. At LEX, we are aware of this and, consequently, we have implemented a high speed Wi-Fi system aimed to the usage by our customers.

PRINTER AVAILABILITY

Should you require printing any document, you will not have the need to disembark and look for a stationary shop. At LEX, we have a reliable printer that, combined with our Wi-Fi service, will allow you to print everything you need without any effort.

IMPRESSIVE AUDIO SYSTEM

At LEX, we believe that music plays a key role in our lives, especially in the moments of joy. Due to this, we have a high-quality Bang & Olufsen sound system installed all over the yacht in all internal and external areas. In addition, we have a wide selection of different tunes available on board, in order to satisfy every music preference. However, if you prefer to play your own music, you will be able to wirelessly connect your smartphone, computer or tablet to our sound system, thanks to the recent improvements implemented in order to offer this feature.

“The world’s most famous and popular language is music.”

HD SATELLITE TV SYSTEM

Watching a film or the news is something that you would be able to do at LEX, no matter if we are navigating, anchored or berthed. Our yacht has a satellite TV system available in every of the high quality HD TV systems installed in all cabins, saloon and flybridge.

“Wine is bottled poetry.”

FIRST QUALITY WINERY

Some people say that wine is bottled poetry. At LEX, we have a carefully chosen prime quality winery available to our customers.

PREMIUM COOKING SERVICE

Every human being loves to be delighted with incredible dishes. At LEX, thanks to the cuisine of our cook, we offer our customers amazing premium and varied dishes. Just tell the chef your food preferences and he will ensure that you enjoy every bite that you take on board of our yacht.

“There is no sincerer love than the love of food”

TRANSPORT ARRANGEMENTS

As soon as you put your first step outside the airport terminal there will be a chauffeur holding a paper with your name printed in it. He will politely guide you to the car and then drive you to our yacht, in order to make sure that your on-board relaxing vacations period begins as soon as possible.

RESERVATIONS

When being on board, we want you to rest and relax. In order to make sure that this objective is held both, inside and outside LEX, if you desire to develop an activity outside our yacht, you will just have to communicate it to any member of the crew and we will try to arrange everything for you.

HARBOUR BOOKINGS

Although some people prefer to spend the whole nights of their on board stay anchored in a beautiful cove with a marvellous beach, others like to sleep some nights in a harbour berth. Since in the Balearic Islands during the summer period there is a lot of berth demands, should you desire to have this option available, please communicate it to any member of the crew so that we make our best to turn your wish into reality.
